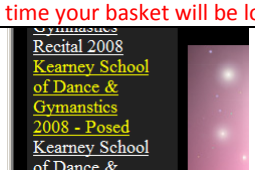
Collage Building process

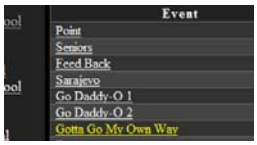
This tutorial will help you when creating a custom collage.

Keep in mind that if you close your browser at any time your basket will be lost

You should see our website

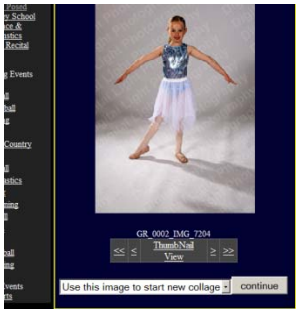


Select the event you want to see on the left side.

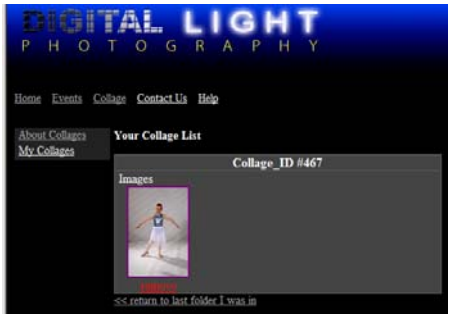


Click on the dance, date or program you want to see.

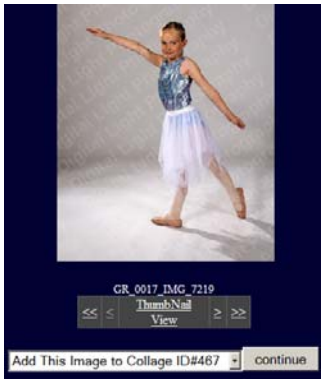
Click on the thumb nail you want to see.



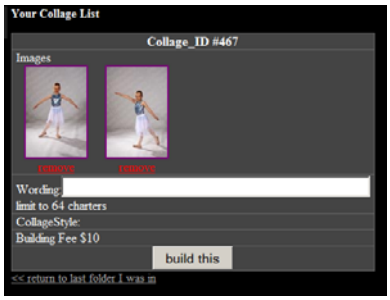
Click on the continue button to start the new collage.



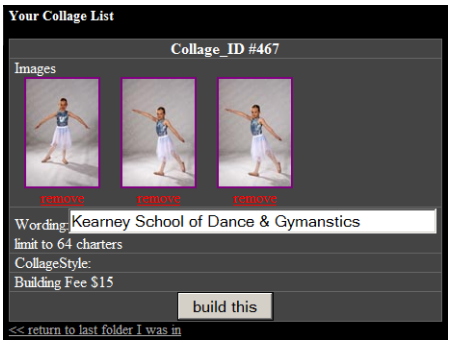
Your first image in your collage is saved in this example is Collage_ID 467. You can return to the last folder with the "<<return to last folder I was in" or find another photo from the events.



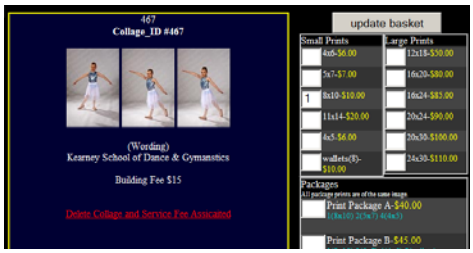
Once you find another image you would like in your collage, click on continue. Again in this example we will be adding to collage ID 467.



Once you have at least two image in your collage you will see the building cost appear.

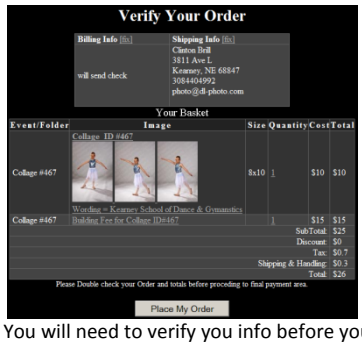


We've added a third for this order. We will now enter the wording we would like to see on our collage. Click on "build this" to continue.



Now you can select the size of the prints to order. We are going to select 8x10 for this example.

Now you will see the collage in your basket. Continue to fill out shipping and payment information.



You will need to verify you info before you submit your order.

We will send you a email proof of your collage before it goes to the print shop.
